ST. PETERSBURG, Feb. 17== The Associated Press has received a dispatch from Moscow stating that the Grand Duke Sergius, while driving in a carriage to the Kremlin at Moscow today, was assassinated by a bomb which was thrown beneath his carriage. The carriage was blown to pieces. The assassins were arrested. One of them was dangerously wounded. Several students who were in the vicinity were taken into custody.

"What reason," he asked, "was there for May Clark to testify as she did?"

He knew the Sheriff and Prosecuting Attorney too well to think them capable, zealous as they are, to induce her to give false tostimony.

He designated her testimony as "ravings and a pipe dream."

Why should Lottle Smith and Myrtle Hall tell the story they did if it was untrue? He repudiated the idea that the defense by its testimony had descrated the memory of Bertha Weber, as alleged as it stood too high to be affected.

He spoke of the finding of the pistol in the Weber piace and the testimony of Carr that Adolph bought it, discrediting the statement.

He reviewed the testimony of the dedendant, and Dunham was mistakennight and the contradictory testimony of the prosecution was adduced.

Speaking of: the stress placed by the prosecution on the actions of the defendant on the night of the fire, he said he acted in a calm manner at Cohn's store. If he had wanted to destroy evidence he would have thrown the old pants into a burning room, not one where there was no fire: It was, he said, McKinstry who jumped out of the north window, not the defendant, and Dunham was mistaken. San Francisco and Oakland would be in the coming years, and further remarked that if he were twenty years interest in the bay cities as his means would reach. One of his pet ideas was to have a gravel train, run by gravity, from the foothills to the bay, making a deep water front for Oakland.

While he said but little about the Santa Fe, I knew that they were looking towards this portion or the coast for an outlet, and have only been disappointed in the time they took in a great hue and cry against the Southern Pacific. A great many of those whom I met at that time turned their conversation upon the Southern Pacific, regarding it as one of the great obstacles to the advancement of Cali-

PREJUDICE AGAINST CORPORA-TIONS,

At first I thought there was something in it, but on further investigation I came to the conclusion that the great mass of the public was doing injustice to this road. My friend of the Santa Fe spoke of this prejudice against the Southern Pacific, stating that notwithstanding there were some things about it that doubtless could be improved, yet it was a wonderful factor in building up the bay cities, mentioning, among other things, the free ride from Fruitvale to the bay, and the best ferry system in the world across the pay; that their lines extended from the Chesapeake Bay to San Francisco, and all the earnings of these extended lines were gathered in a their headquarters in San Francisco, and largely expended in this State; also, they were contemplating to Los building a coast line Angeles, spending thousands of dollars for securing rights of way, and paying the best wages of any road in the world. They carried through passengers over a thousand miles of trackless desert at two cents a mile, whereas, in the Middle West, all the other combinations together. they were charging three cents on

many roads. The Santa Fe. on its arrival here, was justly looked upon as a great boon for the coast, and it has been a great city-builder from its organization to the present time. But notwithstanding we have secured another trans-continental system, there has been no reduction in freights or passenger rates to the East.

FOLLY OF FIGHTING CAPITAL.

It seemed to be the duty of a large portion of the people of Oakland to comway of corporations, whereas, we know that corporations build cities,

It seems that our present Council believe that they were elected for the purpose, at any cost, of securing another water plant for Oakland, and our retiring Council are of the 'opinion seemingly that it is their bounder duty to do this, before their term of service

For one, I have great doubts about the expediency of a city owntag. its own water plant. The arguments, pro | a Council that is to be changed every or con, in reference to this would be two years. Imagine for the moment too long for a newspaper article.

Of course, our Council is actuated of the city's business, yet what mis- | the time that it would be necessary to takes have been made. For instance: One of our city attorneys informed nic that one payment of \$10,000 had been made for the dredging of Lake Merritt, and no compensation was received for the same; and perhaps this den upon the city of Oakland. > Again, there was recently a move ment to take a large part of the suburban portion into the city limits of Oakland. This tract will hold, in the near future, 20,000 people. Every taxpayer that was asked in the city of Oakland, large and small, signed the petition willingly, stating that they were very anxious to extend the city limits eastward. These facts are simply referred to to show how difficult it is for a Council actuated by good intentions to control benefit of the city. One of the best informed men in the city of Oakland, who has resided here for over forty years, informed me recently that the city has paid out over \$80,000 to attorneys to fight corporations, and practically has secured no benefit what-

Suit was commenced. Eminent counsel was retained. The result, the city lost its suit, and some \$2,500 was to plain and throw every object in the pay. This the Council allowed, notwithstanding they refused to expend \$3.000 to extend the city limits east-

ward, taking in a large territory. As heretofore stated, these thing are simply mentioned to show, even actuated by the best intentions, how difficult it is for the Council to handle any measures not strictly of an administrative character.

Now, contemplate the voting of \$6,-000,000 of bonds for a new water plant, placing them in the hands of the confusion, the strife and the opportunities for improper persons to by the best motives in the conducting secure the handling of these funds in

complete the work. DANGER OF HIGHER TAXES,

There are many reasons why, at this time, it would be very inopportune and very improper to put this great bur-

the laboring class to pay their burdens. Our taxes, at present, have eached the danger line, and our legislature has even contemplated the fact of issuing stamps on certain class

of merchandise for the purpose of rais-

ing more taxes. When property valued at about \$2,-500 pays over \$60 taxes in one year, certainly the time has arrived to demand a halt. Furthermore, no middle-aged individual would live to see our streets put in order again, if they are to be torn all up and new pipes put in place.

The litigation that would follow ould simply be oppression.

BUY CONTRA COSTA PLANT.

There is some sentiment in the fact that in the present water plant there are many stockholders who are widows and orphans, and moneys of estates upon which the heirs depend for a livelihood, and it is not altogether just, even if it were possible to do so to make their property worthless,

I have talked much with many of our most conservative fellow citizens, and the entire opinion seems to be, if our Council can secure a reasonable offer from the Contra Costa Water Company for its plant, measures should be adopted for its purchase, therwise, have it condemned. ertainly ought not to be fearful of our wn courts putting a just and equitable price upon this preperty.

The law provides all means, and why not adopt it, instead of venturing out upon unknown seas of litigation and a great many other insurmountable difficultles that would arise in substituting another system of water works.

BONDS WILL DEPRESS PROPERTY The suit commenced by. Attorney Dow against the Contra Costa Water Company has run through three administrations at an expense of a great many thousand dollars to the city, and they have not yet even had a hearing upon the important question involved. It is difficult for any reasonable man to contemplate, if bonds are voted, when the litigations sure to follow, would be finally disposed of. In the event that these bonds should be voted. the territory within the present city limits would be compelled to pay not only the interest, but the principal, not embracing all these outlying districts which we hope to take into the city limits in the near future.

If, with all the present extensive territory the Contra Costa Water Company has to draw from, they canot pay any dividends, how would the city of Oakland pay its interest and principal, only having the present limted territory to call upon.

WAY TO BUILD UP THE CITY. Now, Mr. Editor, let us stop fight ng corporations. Let us bury sthe natchet, and our surplus millions, if we have any, spend in giving bonuses to large manufacturing plants, biillding up cities and not litigation. We furthermore need millions for parks and additional school houses, as our city increases, and the improvement of Lake Merritt and a thousand and one other desirable and important improvements necessary in the great city

which we hope to be. I think it would be the greatest misfortune that could befall this young and prosperous city, in its present voted at the coming election. Every citizen that has the true interest of Oakland at heart should cast his vote against this project.

J. C. M'MULLEN. President State Savings Bank,

ANNEXED WANT **NO MORE BURDENS**

CITIZENS WHO SAY THE HAVE ALL THEY CAN BEAR OPPOSE BOND ISSUE.

Editor TRIBUNE: Observing that von invite discussion of the water bonds subject I avail myself of the opportunity to give my own views, which, am assured, are those of many of my neighbors as well. We voted several years ago to annex ourselves to Oakand. We hoped to enjoy some additional privileges by so doing, otherwise we should have voted to remain "In the country." But us we are now with-Council, but simply slipped through the extent that it would be a great hard- in the City of Oakland's boundaries we

This fact becomes clearer and clearer

Since becoming "annexed" we have had fed to us promises of much-needed school facilities, fire protection, and more street lights. These have been in very small part fulfilled. But the city tax collector has never failed to send us notices of any little delinquencies improvements, sidewalks, sewers, etc., after they had been crowded upon us because we were compelled to foot

. Not a few of us are living in houses which we are paying for on the installment plan. Some are nearly paid for, other have one, two or three years' payments to be made before we can call them ours. We are purchasing our homes under "cast-iron contracts" whose terms are, that if we fail in making payments when due our houses and lots are forfeit.

We of the "annexed district" are

ot capitalists. Most of us are in the ordinary ranks of life-mechanics There are no signs of "race suicide" in our section of the city. As a rule inomes barely suffice to keen our fam illes in respectable condition and comfort. There is no surplus after we have laid aside the "installment money" and paid the butcher, baker and grocer. As everybody well knows the cost of living has materially increased

the last few years and some of us who "planned the future," find it an effort to "squeeze along" and make both ends meet financially. Now, under the above conditions we

are asked by our highly respicted Mayor and City Council, to vote to bond the entire city of Oakland for nearly \$6,000,000, which bonds shall what? To buy a water supply which is not in existence. A water supply said to be slaty miles distant in the parties adverse to those who are offerng it for sale. Hence it appears that we are also invited to vote to buy a lawsuit which may, continue in the courts until we are dead and our chil-

Is it possible that the long years of litigation over the Oakland Water front has faded from the minds of our city fathers? And if that be do, do they not remember that another vexatious and expensive litigation has been burdening us these last few years, and is vet in the courts? What supreme folwhich invite assured litigation, and at the same time will increase our annual taxes very materially? We can just about get along under existing conditions. Why should we vote to plunge ourselves into a new sea of trouble and heap additional expenses upon us? Further than this we are asked to accept a proposition costing us \$5,700,-000 without our being given an opportunity to see the plans and specifications. Who would hind himself to pay for a house to be built that way? What kind of material is to be used in constructing this Bay Cities Water plant? Does anybody know? Will the pipes be of tin, sheet iron, or terra cotta Or will the water be brought to Oakland in wooden troughs? Out heré in "the annex." where we have some fine samples of sewer "skulldudgery" we are suspicious. The Bay Cities lawyers can eloquently tell us that "everything shall be to the satisfaction of this or that city official," but we would rather see the contract drawn, the plans and specifications, and know who is to oversee the work of construction before we vote to bond ourselves to the tune of nearly \$6,000,000.

Another thing: Many of us have sunk wells and own our own water We have paid for well-bor supply. ing, for tanks, for windmills, for motors and other necessary apparatus. Yet those who applauded us for thus becoming independent of the waterrate collector are now fiercest in Jemanding that we vote to tax ourselves for a municipal plant which is as yet in the "blue print stage of existence?" We will reply to their demands on election day."

DECIDEDLY AGAINST A BOND ISSUE

MERCHANT P. FLYNN DOES NOT LIKE THE BAY CITIES PROPOSITION.

Editor TRIBUNE: Under the showing made up to the present time in behalf of the Bay Cities Company I Oakland is the coming city of Califoram decidedly opposed to voting one dollar of bonds, to say nothing of \$5,-700,000 for the proposed scheme. Why? Because the Bay Cities Company has nothing to sell. The city of sacted here during the last five years

more years hence I will bring a supply to your gates." .

Not a word as to how the supply is to be brought here whether in tin buckets by airships or submarines. Bay Cities Company has a clear title contrary Spring Vailey Water Comon our part. We have annually "had pany has asserted that it owns all that to pungle." When it came to street which is claimed by the Bay Cities Company and offered by the latter to the city of Oakland.

> Suppose a customer in my store should say to me: "Mr. Flynn, I am very anxious to buy some valuable goods necessary to my welfare;" and suppose that I should say: "Madam, I haven't such goods, but pay me \$1000 and three years hence I will have them for you, meanwhile you can keep on buying at some other store." What could I expect her to reply to that: Something like this: "Which is the nearest lunatic asylum, Napa or Agnews, and how soon do you start there Mr. Flynn?"

No more sane, sensible or businesslike is the offer made to Oakland by the Bay Cities Company, which has no goods to deliver.

WANTS SOMETHING **MORE DEFINITE**

\$20,000,000 AT THE PROPER

Editor TRIBUNE: With no small interest have I watched the discussion now in progress over the proposition to issue bonds, under a contract yet to be drawn between the city of Oakland and the Bay Cities Company, for a municipal water supply. The amount Mt. Hamilton region. We are also told proposed to be so voted is, I believe, that this water supply is claimed by about \$6,000,000. In my humble opinion an important step previous to issuing, or voting, any bonds, has been omitted, viz.; the securing of a consolidated city and county government.

With Oakland and the adjacent cluser of cities, towns and hamlets consolidated into a single municipality. the latter would rank next to San Francisco in population and wealth in California. Then could, and should, be voted not \$6,000,000, but at least \$20,-000.000 of bonds for an adequate water supply for the next century. As to this Bay Cities proposition, I think it is a poor one to tie to, as far as it has been uncovered. Until something more definite is shown us the people of Oakland had betted continue to "bear those ills we have than fly to others that we know not of."

FEARS POLITICS

WHY L. A. REQUA IS OPPOSED TO BAY CITIES PROPO-

Editor TRIBUNE: I am against the Bay Cities proposition and would he against a proposition to purchase the plant of the Contra Costa Water Company. I do not believe in municipal ownership of a water plant, because I believe it would be turned intopolitical machine. Some of my friends have combatted my views and have called my attention to the Postoffice. My answer is that the postal gvice is a National affair. No municipality could conduct such a service. The difference would be as great as that between the Federal courts and ne Police Courts of a city.

But if the city could conduct a water plant without turning it into a political machine, what is the use of it. We could not compete with the Contra Costa Company, which is giving us excellent service, and I say, let good L. A. REGNA.

CHARLES P. WELCH IS IN FAVOR OF THE BAY CITIES '

Editor TRIBUNE: I see in the

OAKLAND TRIBUNE of February 9th that A. Shirk, M. D., of 178 Tenth street appears in another letter against the Bay Cities Water Company's proposition. I do not know how much stock or other securities of the Contra Costa Company Dr. Shirk owns. That he must own some, or for some other reason has more than the interest of a taxpayer for the basis of his opposition, I am quite sure, for in November last, he had a letter in the same paper in which he was attacking both the Bay Cities and Wells proposition, which were then about to be submitted to the people on referendum. Shirk wants neither of these.

He wants nothing but the Contra Costa water plant. And in a letter written to the same paper the month before, the letter to which I have just referred, he wants the city to take the Contra Costa's plant, "let the price he what it will." In that letter he appears willing that the city should take up with another proposition if the purose of that proposition be to add more vater to the Contra Costa Company's plant, for apparently he recognized that the Contra Costa had reached the imit of its supply, and the city would e compelled to purchase more water from some other source, But the burden of his song was for

he city to take the Contra Costa plant on the basis of most favorable terms that can under any circumstances be So we have, to my own memory, at least three letters in almost many months from this same Dr. Shirk trying to kill any and every good proposition to get water for the city except the Contra Costa property, and to pay the Contra Costa whatever it chooses to ask if we can get its con-

tinds of struggles on the part of the people against a monopoly like the Contra Costa, that those owning property interest in the monopoly have the effrontery to come forward and advise the people to do things against their own interests because the doing of such things is to the interests of those persons. Such letters swelling the pages of a daily paper with the sentiment all in one direction makes it seem like a large number of people are objecting to the Bay Cities project, when as a matter of fact the objectors those persons. Such letters swelling re but a handful of Contra Costa stockholders and a few indifferent or LABOR PARTY TO weak-minded people whom those stockholders are able to influence. Not in every case have these writers stamped themselves as has Dr. Shirk, with having an interest in the Contra Costs sufficient to move him to write repeated letters in behalf of that concern; but I believe it can be taken for granted that not one taxpayer who has no monetary interest in the Contra Costa properties, and who has even half an understanding of the Bay Cities proposition, will be found to give his voice against that project, For my part I know that the Bay

after that taxes will not be touched and water rents will be reduced, as I say, one-third to begin with.

We shall have a good new plant, more than twice the water we have now, pure water and plenty of water for every purpose. The city owning the excellent up to date water work's will have an effect of increasing property values, and cheap water will bring nore manufacturing industries to Oakland, and we shall have better times all around. Moreover, we shall get rid of the Contra Costa Water Company, which for years has been the most depressing blight on the city and interference with its prosperity.

MARRIAGE

Not This Man's Bride.

SAN FRANCISCO, Feb. 17—Japanese "photograph marriages are illegal in this country. That was the ruling of Superior Judge Cook this morning, after hearing argument in the habeas corpus proceedings instituted to take little Rotsuro Taka from the custody of the Japanese Woman's Home. The diminutive Oriental maiden was remanded to the custody of the matron of the home and went on hel way rejoicing, while the man who had imported her to the country for immoral purposes, it is said, must seek other means in bringing girls to this country. Little Rotsuru Taka is just fifteen years of age "She was sent to this country against her will she claims. Her parents told her that she was to become the 'photograph bride of Kang Iki a well-to-do Japanese resident of America, and although she fought desperately against the parental edict, there was nothing for her to do but to obey. When an exached this city, however, the little maiden found frights Miss Margaret Lake, matron of the Japanese Woman's Home heard of her sorry plight, and determined to effect her rescue if nossible The girl was taken to the home, and despite the efforts of her importer Judge Cook decided this morning that she should remain there until arrangements can be made for her return to Japan. The Prohibitionists and the Canteen

It is useless to tell the ultra temperance enthusiasts that the abolition of the canteen has caused additional demoralization and increased drunkenness in the army. They know no degrees between absolute abstinence and complete sottishness. Their contention is that the sale of liquor to any extent is a crime, and that it is the duty, therefore, of the Government to prohibit it. They object to the Government sanctioning or regulating the sale of liquor on the ground that to do so is to countenance and abet a crime. It is not temperance these intense people seek, but prohibition of all traffic in liquor. If they could have their way they would prohibit under the severest penalties the manufacture, sale and drinking of all intoxicants.

It must be conceded that these people are severely logical. Havsing determined in their own minds that it is a crime to make, sell or 'drink intoxicating liquor, there is no middle ground. Would you license and regulate murder? they ask. Are arson and larceny to be committed in moderation? But men will make and drink liquor even if the law does forbid them, you say. Men will and do commit murder, arson and larceny in spite of the penalties of the law answer the Prohibitionists.

It must be admitted that they have a case when their original premise is granted. They argue that drunkenness is a crime, ergo it is a crime to manufacture or sell any beverage that will make men drunk. It logically follows that the Government is participating in a crime when it taxes and licenses the sale of liquor.

With the Prohibitionists the moral aspect of liquor and liquor drinking overshadows every other consideration. They decline to discuss expediency or to deal with propositions practically. Their aim is to make it impossible for liquor to be obtained or drunk. They forget that almost any person of ordinary brains can make brandy with a tea kettle and a basket of half rotten apples; that they can get drunk by squeezing grape juice into a jar or letting grain ferment in a tub. Alcohol is produced so easily and in such a multitude of ways that it is a physical impossibility to prevent it being made and drunk by statute The trouble with the Prohibitionists is that they are trying to lay an embargo on the appetites and the personal liberty of the great mass of men.

Maxim Gorky's jailer says the novelist is well treated in prison. This statement is likely to be taken with several grains of allowance A Russian prison keeper's definition of well treated would probably be disputed by the prisoners under his charge.

Another stuffer has been convicted of traudulent voting in San Francisco, but no steps have thus far been taken to punish the men who procured the stuffing and profited by it.

The Impending Crisis.

country's markets. This sums up the issue of Government regulation in a sentence.

dozen groups of individuals. Each group is in turn dominated by two or three persons. The process of compressing control in a few hands is still going on, and seems likely to go on-unless summarily tically centered in one group of individuals with a single dominating of the arbitration treaties. head.

It would then be a question for determination whether the Government or the railway interests is the stronger. The railroads would seek to employ the agencies of the Government through its own representatives, and would consequently attempt to control the selection of Governors and Congressmen, and Presidents even. Then the issue would squarely be drawn between government by the people and for the people and government by the railroads for the railroads.

From controlling the railroad lines, the transportation magnates would extend their dominion over traffic by obtaining control over the steamship lines. That accomplished, the commerce of one port could be destroyed that the commerce of another might be built up. It would only be a matter of fixing rates. Some manufacturing interests could be built up and others destroyed simply by discriminating or giving rebates.

One city would have to obey the commands put upon it under penalty of seeing its trade diverted to some other city. The manufacturer would have to bow the knee or see his business rated out of philosopher. existence.

This is the condition that is rapidly forcing itself on this cour yet we are told the Government has no right or power to interfere. We were told that the Government had no right to interfere when the Union was threatened with disruption that the infamy of human slavery might be perpetuated on these shores. But the Government did interfere, nevertheless, and the Union was preserved and slavery destroyed.

If the railroads persist in forcing this issue, the freedom of commerce and the independence of the Government will be preserved even if private ownership in railroads has to be abolished by a political nor in the surf this summer." convulsion, as slavery was.

The public of San Francisco would be satisfied with the suspension of Chief Witttman if it gave them any assurance that the change meant an improvement in police administration. But that is the rub. Small benefit is to be derived from swapping King Log for King Stork. If the graft is merely to be switched into other channels, the change will not alter conditions or serve any good purpose.

Straightening Out San Domingo.

The President's message transmitting to the Senate the protocol of the new treaty with San Domingo calls attention rather bluntly to the responsibilities which the United States must assume if the Monroe Doctrine is to be maintained. This Government cannot permit any European nation to obtain a foothold in the West Indian archipelego, particularly in an island so fertile and so rich in natural resources as San Domingo, yet the people of this country do not desire to annex the island or to assume a protectorate over it. The charfacter of the population is sufficient to account for this disinclination. The inhabitants of one part of San Domingo are French speaking negroes, the inhabitants of the other part are Spanish speaking mulatto. Except for a few foreign residents there are practically no pure whites in the island. While no European power is disposed to dispute our claim to hegemony in San Domingo, it has become absolutely necessary that the two so-called republics on the island shall the compelled to keep faith in their international agreements and show proper respect to the persons and property of foreign residents Hardly a twelvemonth passes that some power is not compelled to send 2 warship to Dominican waters to obtain redress for some wrong inflicted on the person or property of foreigners. Treaty engagements are no more respected than personal and property rights. Hence the Dominican situation is a constant menace to the peace of the world and a standing reproach to our attitude on the Monroe Doctrine. -All this the President frankly discusses in explanation of the treaty which has been drawn purposely to enable the United States to deal with Dominican relations with other powers without arbitrarily interfering with the independent action of the island government.

Why President and Senate Disagreed WIII A subscriber desires to know what was the real point of difference between the President and the Senate over the arbitration

It was a question of procedure. The treaties provided that the Government of the United States and the other signatory powers might refer any subject of international dispute within the limits defined by the convention to The Hague tribunal by "agreement." The word agreement was stricken out in the Senate and the word "treaty" substituted. This requires each case of arbitration to be approved by the Senate prior to submission to The Hague court.

The Senate amended the treaties in two important particulars. One of the amendments is to the effect that no claim against any State of the United States, alleged to be due to a foreign government, or to any subject thereof, shall be a subject of arbitration under the agreement. The second amendment renders the arbitration under the subject of arbitration under the subject of arbitration under the subject of arbitration treatives superfluous, because it provides that any agreement to submit a question to arbitration under the treaties shall in every case, before it becomes final, be communicated to the Senate, and concurred in by two-thirds of the Senators present.

These changes require the President to obtain the consent of the Senate before submitting any dispute to arbitration. As the treaties were originally drawn the Executive was given general discretionary authority to so submit causes in dispute without consulting the senate decided that (1) there was no constitutional warrant for delegating its powers in any degree and (2) that it was the right and prerogative of the Senate to sanction the terms and conditions of each individual arbitration before its submission to an international court.

It was the concensus of opinion with the leading constitutional

It was the concensus of opinion with the leading constitutional lawyers of the Senate, among whom may be included Lodge, Spooner, Platt of Connecticut, Bacon of Georgia and Morgan of Alabama that an agreement to arbitrate was in a sense a treaty, which the Executive could not constitutionally enter into without the Senate's participation, and that a treaty has all the binding force and effect of a law. Hence, as the President can neither make laws nor treaties without the consent of the Senate, the wording of the treaties was changed in a way to prevent the President from arbitrating on his \$88.00 TO WASHINGTON own initiative and responsibility.

The President has decided that the changes rob the treaties of all virility and usefulness, and he there ore declines to submit them again to the other signatory powers. As amended, the treaties do not promote or expedite arbitration in the slightest degree.

The contention once more illustrates the anomalous position the United States occupies among civilized nations and the difficulty our Government encounters in its external policy. The object sought by the President was clearly a peaceful, just and speedy settlement of disputes with foreign nations. Only the constitution-and its strict construction by the Senate-stood in the way. Particularly it may be remarked that the Senate has never hesitated to construe the Con-The Impending Crisis.

> A Yale professor takes issue with the accepted theory that there are more children in the families of the poor than in the families of the rich. As his investigation was limited to the families of a few hundred college students his conclusion is of no great value. The facts of everyday life prove that the poor multiply much faster than the rich. As a rule, the greater the wealth the smaller the proportion of children is to be observed. There are exceptions, of course, but the exceptions only prove the rule.

WHAT MERCHANTS SAY ABOUT

SOME FAVOR MAYOR'S ORDER WHILE OTHERS OPPOSE

merchants on the Mayor's order to remove signs from the sidewalks: A. L STONE, 900 Broadway-I beleve in making the city presentable. I do not see any objection to it. You can't have any good without some attending evil. I believe in beautifying the city all we can. But in consideration of other things, the whole matter seems to me to be of minor importance from both standpoints.

W. S. HARLOW, 950 Broadway-It was a good idea to have the very large signs taken down-those that obstructed the view I think the small ones are a benefit to the public generally as well as to the business men.

generally as well as to the business men.

A D. MERRITT, 952 Broadway—I see no necessity for it. It seems to be an unnecessity crusade against mercharts and business.

C. N. Wood, 966 Broadway—As a whole, I think the idea good. Some of the largest signs though ought to have heen taken down and should never have been permitted to be put up in the first place. Some of the men who had their signs taken down don't know they are in business now. They are not doi'ig a thing.

G. C. MORGAN, 968 Broadway—I should certainly prefer to have the signs taken down. One man would have no advan'age over the other if all the signs went down.

GEORGE IL VOSE, 968 Broadway—The Mayor should not bother so much about the signs over the sidewalk as the obstructions on the sidewalk such as, for instance, drawing a line between bicycle tacks with and without signs. Also there is objection to show windows obtruding on sidewalks and space that belongs to the public.

nated signs, though, are ornamental and should be allowed to remain if on proper places.

E. LEHNHARDT, 1159 Broadway—I be lleve there is an ordinance requiring signs to be removed, and it should be enforced. It seems to work a hardship, however, on those who originally secured permission of the authorities and went to considerable expense. Swinging electric signs, which I consider an ornament and add to the lighting of streets, might be excepted. W. S. JENKINS, 1067 Broadway—I think the Mayor's order is a good thing, though it seemed a little arbitrary at first took my sign down before the time limit expired. I think it is all right to have filliminated signs if they are swung back in the day time. I am just back from a trip East. Pennsylvania avenue, Washington, D. C., and other Eastern cities, are full of such signs. They are an ornament.

MES. S. SILBERBERG, 1061 Broadway—The order of the Mayor does not affert me. I do not mind whether the signs are-over the sidewalk or not. I do my business with signs in the window and get along just as well.

One of the best informed politicians of the State, who is here at this time, says it is one of the most sensible measures which has been introduced in years. There is, furthermore, he avers, scarcely a county where the law is not violated. It displays a species of graft which is far from being worthy of commendation, more especially when men put their wives to work, or rather, place their names on the pay roll while the work devolving upon the spouses is performed by some other member of the working force, and that there over treated forces.

The Besi of Goves

Everybody wants the best of gloves-and they want to pay a reasonable price for them. The fact that we combine economy with style in glove-selling has made the Moss Glove House popular and is enabling it to maintain its popularity.

Spring is a new season and it is almost here. Most glove dealers charge higher prices for new season's gloves—but we don't. We have new gloves all the time, but we always have the same staple prices.

Here are some of them:

The Amazon \$1.00 PP.

This is one of the most popular of all gloves; it is a hard-wearing walking glove made of excellent quality of cape skin, strongly stitched; all desirable colors; a glove with "something to it."

The Minerva Special \$1.10 pr.

This is known as the Minerva, a regular \$1.75 glove. This is the strongest lightweight glove in the world; perfect fit and finish, and adapted to either dress or survice; staple shades.

The Gamossi \$1.50 pp.

We could write a book about this glove. It is our own creation and has earned a reputation second to no glove in the world. Its development has been the work of years and on it we hang our reputation. But we are risking nothing-the Gamossi measures up to the fullest standard.

ESPEY AND MARRIAGE LICENSES

Ill-timed, Ill-advised and hasty mar clages will be prevented in the event of the adoption of the blll introduced by Assemblyman Espey of Oakland, in three public places, for ten days, the names of persons seeking licenses to get married,

Mr. Espey presented the bill at the request of Rev. Mr. Gee, Rector of St. John's Episcopal Church, Oakland, and Rev. Mr. Walkley, Rector of St. Paul's Church of the same place. These clerics represent a number of others of the Episcopalian Church who, for some time, have been cognizant of the wrong, the misery and horror which result from hasty and ill-advised matrımonial alliances.

LEGISLATIVE BANQUET.

The Assembly, Senate and members of the press connected with the Legislature will be banqueted by the citizens of Sacramento next Monday night. The event will take place in Masonic Hall and it is understood will be an elaborate affair, because it has been under consideration for some time. The Finance Committee has control of more than \$1,000 and says that it will afford the guests a spread of a very fine order.

CHANGE NAME BLIND HOME. Senator Sanford of Uklah has introduced a bill providing for a change in the name of the blind asylum at Berkeley. That institution is officially known as the "California Institution for the Deaf, Dumb and Blind" and this, the Senator would reduce to simply the "Institution for the Deaf, Dumb and Blind." This would be shorter and simpler certainly, but it does not set forth the fact that it is a California enterprise.

ESPEY ON CONTESTS.

One of the most unique bills which has been presented the present season is that which bears the name of Assemblyman Espey of Oakland. That gentleman, however, scarcely knows how it came to him. He introduced it for whatever it was worth.

The measure provides a method of settling or striving to settle fights between contested elections in State, county and other conventions. The method includes the appointment of a committee of five at each convention who are to be endowed with inquisitorial and judicial powers, among which are the subpoending of witnesses and in effect of conducting a trial.

After the testimony on both sides has been taken, it is to be condensed and the effort, with a recommendation, s to be sent to the convention, which is to perform the final act of seating the regulars or the contestants or of otherwise disposing of the matter.

BERKELEY, Feb. 17.—Every improvement club and womans' organization in town responded last evening to the call of the civic section of the Town and Gown club to jointly discuss ways and means to keep the streets of Berkeley clean and free from weeds.

The office of Albee & Coryell was crowded with citizens eager to help in this work.

Great unanimity in thought was expersed, and not a dissenting note was heard the entire evening. Every section of the town was represented.

Mr. Rickard of the Town Board claimed that clean streets was one of his hobbies, and that while popular agitation might do much to stimulate individuals here and there, the right thing to do, and the most efficacious, in this work.

Great unanimity in thought was expressed, and not a dissenting note was heard the entire evening. Every section of the town was represented.

Mr. Rickard of the Town Board claimed that clean streets was one of his hobbies, and that while popular agitation might do much to stimulate individuals here and there, the right thing to do, and the most efficacious, would be to draft a bill to be presented to the State Legislature through our Assemblyman, William H. Waste. Short speeches were made by Street Superintendent Turner, Mr. Ferrier, Victor Robertson, Mr. Shaad, Mr. Frame and others.

The general consensus of opicion was that a communication be immediately sent to Assemblyman Waste, expressing the need of the people.

Mr. Gibbs of the Ashby Club helped with the legal form of the document which was written and signed before the meeting addourned and read as

which was written and signed before the meeting adjourned and read as

"To the Honorable W. H. Waste, Sacramento—At a mass meeting of citizens of Berkeley held this evening, School Director John D. Isaacs, chairman of the Building and Sites Committee of the City Board of Education, were summoned before the Grand Jury yesterday afternoon.

Mr. Hardy explained that the owners of property adjoining the Lincoln and Prescott schools were holding out for exorbitant prices. Condemnation suite had been threatened, he said, but they had proved of no avail. If the prices asked were paid, he said, but they had proved of no avail. If the prices asked were paid, he said, it would cost the cost of moving and enlarging the buildings.

Attention was called to the fact that one of the architects whose plans were accepted had not complied with the law in filing a bond.

It was unanimously voted as follows: "Resolved, That the Honorable W. H. Waste, our representative in the Legislature, be requested to prepare a bill and urge its adoption by the State Legislature of California, giving to municipalities the power to keep the streets in order and clean the same and levy a special tax upon abutting property to cover the cost of same."

Large sums are spent every year for street improvements, and the astonishing thing is, that there is no adequate law to supplement those laws in filing a bond. t was unanimously voted as follows: "Resolved, That the Honorable W.

Hanjon has always been a consistent performer, while Mowatt has at times made a sensational fight, and then has put up some poor ones. Both boxers had spent a lot of time preparing for the affair.

Hall has been trying to get Charley Donohue, the bilme-topped Irishman who played for Spokane a few years ago. Donohue started in with the St. Louis Nationals last summer, but did not get a chance to show his worth. He was finally released to Philadelphia and put up a bang-up game at second, though third is his regular position. The Philadelphia fans are still howling because Donohue was traded to Indianapolis for Mique Kahoe, who at his best, is not more than an average catcher. Hall says that the price asked for Donohue was too high, so Seattle did not get him.

GET BURNS.

Johnnie Burns comes to Seattle in exchange for Carlos Smith and a piece of money. Carlos announced last fall that he was through with baseball and intended putting in his time on his cotton plantation. But it seems that was only a ruse to get away from Seatile. The lanky flelder felt that he was rousted a good deal, when he was playing better ball than some of the more high-priced men. He covered that sur field about as well as hitting was always all right. He will play this year in Toledo and he should do well in that league, for he will not be facing any better pitching there than he did here.

Russ writes that Los Angeles and Seattle are the only two towns that have not won the pennant on paper this year, and that he expects Seattle.

Champion Wrestler May Become a Champion Pugilist.

Frank Gotch, champion wrestler, can , for any one to tackle, fight some. He proved it the other day in Buffalo, N. Y., when he met Sam Williams, a biz Canuck, in a ten-round boxing bout,

The wrestler proved that he was the pest and now his hopes of meeting Champion Jeffries have gone up to the top of the tall buildings.

It was to be a try-out for Gotch before about fifty members and some friends, but in the fifth round Gotch knocked Williams down so hard that he could not respond to call of time for the sixth round. Instructor Kreiger, wno referced the match, stepped in and stopped it. The bout was a most favorable tryo-out for Gotch. Williams has fought several battles in Canada. He is taller than Gotch and outweighed him fifteen pounds.

WAS A FARMER.

A farm near Humboldt, Ia. contributed Frank Gotch to the sporting world. He was discovered by Dan McLeod, who afterward made his find known to Farmer Burrs, who developed the young glant. From boyhood Gotch thought of nothing but wrestling, and at 18 he was a soild chunk that was hard to handle. He wrestled his father, his brothers or anybody that he could cajole into a ring.

Finally Gotch became the acknowledged champion of the county. About this time he joined the order of Woodmen. They gave a picnic at which a

It was science and speed; and McLeod won after an hour of grueling work after an hour of grueling work.

After this Farmer Burns took Gotch in hand, taught him the science of Nelsons, crosslocks, headspins, hammer ocks and all the tricks that go with

MADE A FORTUNE.

In 1901 Gotch went to Alaska to take gold out of a placer mine. He came back with \$35,000—made in the wrestback with \$35,000—made in the wrestling game. He beat every wreatler of
note in Alaska, winding up by defeating Silas Archer, the champion, in
one fall lasting 18½ minutes. Gotch's
winnings in this match were \$18,640.
After his return Gotch set out for a
match with Tom Jenkins. They met in
Cleveland two years ago and Jenkins.
was given the decision. They met
again a year ago this month in Belstreet,

lingham and Gotch literally handled Jenkins like a lightweight. He outwrestled and outroughed the champion, beat him at every point and won easily. It was said by some that Jenkins quit like a dog, but experts said he was simply outclassed.

Gotch is 27 years of age. He is built just right for a wrestler. Sheaths of muscles cover his neck, His body muscles cover his neck, His body muscles cover his neck. His legs are as hard as oak and there is no effeminate waist line. His legs are like great pillars and his arms are tremendously powerful. Evidence of his fine condition is that for four years he has weighed almost exactly 190 pounnds. In wrestling he uses all holds, but, like George Bothner, his remarkable legwork is most baffling to his opponents.

CARMEN HOLD SECRET MEETING

NEW YORK, February 17.—After a protracted meeting behind closed doors, at which 1000 employes of the Interborough Rapid Transit Company were present, it has been determined to again make sweeping demands on the management of the road, failure to grant which, it was declared by some of those present, would result in a general strike on the Interborough system, both subway and elevated, March 1. There have been several meedings of a similar nature in the past year and each time the trouble has been settled after conference with the road's outcials.

To draw up a statement of the men's demands for changes from present regulations, regarding the number of hours of employment, the number of trips to constitute a day's work, the length of time between trips and to set forth other matters of less importance, a committee was appointed by the president of the local union. George E. Pepper.

This committee will labor steadily until its work is finished and it is hoped to have the matter on such shape that it can be taken up with August Belmont, president of the Interborough Company, and Frank Hedley, the general manager, some day next week.

The chief complaint brought out at the meeting was that an agreement made one year ago has not been fulfilled by the company. This agreement is said to expire March 1, leaving the employes free to strike if they wish. NEW YORK, February 17 .- After a

LOUIS SCHAFFER MAKES A BID OF \$16,000 FOR PROP-

Under the direction of a court order issued by Judge Ogden The Facific Mutual Life Insurance Company has field the will of the late Margery B. Dougles. She has a policy in the company for \$180 but the company ferfuses to pay it according to a statement made by Attorney Thomas Pearson on the ground that the woman died of consumption. He states that she died as the result of an operation. In her will she directed that the policy is to be paid to Mrs. Vina Harris of 757 Twenty-first street, who was to pay the funeral expenses and keep the rengine for the effects.

A return made in the matter of the sale of reality belonging to the estate of the late Dr. Gustav Rosenk shows that Louis Schaffen has made a bid of \$16,000 for the property owned by deceased at Seventh and Franklin streets and the approval of the court is asked in before the bid can be accepted.

Petition for letters of administration on the estate of the late Annie Davis, who died in Eden Township leaving an estate of three acres of land valued at \$2,000 was filed to-day by her daughter, Ann Davis, who asks to have letters of administration issued to her.

OUR NEW MAN

nn he or, Harry Beresford who appeared here last season and left such a pleasing impression with everyone who saw him will pay us another visit and present his datest success, "Our New Man" described as a "continuous laugh" and credited with being a farce pure and clean in tone and treatment, with excellent opportunities for Mrs. Beresford's artistic methods. This young man is a comedian of the quiet kind who makes much fun straining for effort or resorting to the ordinary methods of the buffoon. His work is artistle in every respect. His personality is charming and his nerve and magnetism of that order which is found only among a few of the great artists on the stage of to-day. His manager, J. J. Coleman, has surrounded bim with a cast that contains the names of many of the favorite farceurs whose appearances here always assure crowded houses at the Macdonough Theater next Sunday matines and night and seals are now on sale at popular prices for the matines.

William Collier, known as "the quaint comedian" will make his first appearance in Oakland as a star under Charles Frohman's management at the Macdomough Theater. Monday and Tuesday nights, February 20 and 21.

Since his previous appearances here he has signed a contract with Charles Frohman which extends over a long period. From the success which "The Dictator" met with at the Criterion Theater, New York City, where it had a highly prosperous run, and from the way it has been received everywhere, it looks as if it would not be necessary to have anything new written for Mr. Collier for at least another season. Richard Harding Davis, who wrote "The Dictator" especially to fit Mr. Collier's peculiar personality, evidently made a very careful study of his man. Reserved seasts are now on sale and the prices are from 25 cents to \$1.50 and Judging from the take two large houses will be the rule at the Macdonough next Monday and Tuesday.

YOUNG CHURCHMEN TO HAVE EXCURSIONS

BERKELEY, February 17.—The young men's class of Trinity Methodist "Thanks to Dr. Williams' Pink Pills, I am now alive and hearty. I began to improve as soon as I began to take them. The first box roused up my appetite, so I gut three more boxes, and when those had been taken I was a well woman. I always take a few as a tonic every spring and fall, and I have found them of great benefit just before and after confinement. Everyone wonders how I keep so well and am able to care for my home and six children without help. Dr. Williams' Pink Pills explain it.

"My oldest girl's health began to fail when she was about fourteen, as the result of too close application to her school work. She was nervous, complained of sharp pains in her head, would get deathly sick and have to leave the school room to get fresh air to revive her. I gave some pills to her. She took only a few boxes, but they cured her troubles and caused her to develop into a perfect picture of health. Episcopal Church will give a moonlight excursion on the bay next Tueslight excursion on the bay next Tuesday night, February 21st, on the steamer Csroline. The excursion is for the benefit of the new church soon to be built.

The steamer will leave the West Berkeley wharf at the foot of University avenue at 8 o'clock.

A program consisting of music, recitations, etc., will be rendered. Refreshments will be served.

BERKELEY. Small Provincial City in Francedevelop into a perfect picture of health. Then my husband took them for rheumatism and found that they would cure that too. So you see we have all got great good from using them and that is why we recommend them to others." Tarbes" was the title of the lecture given by M. Robert Dupouey yester-day afternoon in the Students' Obday afternoon in the Students' Observatory. In his discussion many aspects of this little town were brought out. Also, it was shown that the inhabitants of these small provincial cities know but little of what is going on in the outside world. Even at the election times in France there are not haif of these rural people that know what issue they vote for. In many places they hardly know what men represent them in the council. This lecture is the second of a series which Mr. Dupouey is giving on "Some of the Aspects of Provincial Life in France." and is well known, as she has resided in the same neighborhood for more than thirteen years. Dr. Williams' Pink Pilis are sold by all druggists everywhere. They have cured other diseases also, such as anaemia, neu-ralgia, partial paralysis, irregularities and all forms of weakness in women.

chatton bill of Senator Leavitt has met with defeat in the Assembly, the measure naving received only 39 and the negative 34 votes. At least it votes was necessary to carry the House.

Assemblyman Waste, however, gave notice of moving to reconsider and as things appear now, it is likely the bill will go through the Assembly successfully when it comes up the next time. INTENSE INTEREST.

The marriage of Miss Charlotte Keller and Arthur Elivin took place at noon Wednesday at the home of the bride's aunt Mrs M L Berger of Hanover avenue. The marriage service was read by the Rev M L Berger in the presence of a few relatives

The house was effectively decorated with pink carnations and an informal breakfast followed the ceremony The bride was gowned in pearl colored silk triumed with lace.

Mr and Mrs Elivin will enjoy a brief honeymoon tiny and on their return will make their bome across the bay where the groom has business interests. INTENSE INTEREST.

The interest displayed in the measure was intense and a number of eloquent speeches were delivered on both sides. As soon as the news of the defeat of the hill reached Senator Leavitt, he went to the Assembly and requested Assembly man Waste, who had voted with the majority in opposition to the bill, to give motice of reconsideration, which Mr. Waste did

Notable among those who oppose is Professor Wallace of England, who ranks with Darwin as the most celebrated of scientists, but, in this country, the great weight of medical country the great weight of medical country the great weight of medical country the House is to be put into effect, this Legislature should have the judgment and opinion of high medical authority. It seems to me that this is a matter which should first come before the State Board of Health for its opinion—a Board composed of all branches of the medical profession—and let us have the opinion of that board before taking steps to wipe from the statute books compulsory vaccination. I shall vote against the bill."

Assemblyman Strobridge said:

LIVELY FIGHT.

While the roll was being called, a number of members were absent in attendance upon committee meetings. It soon became apparent that there would be a very close voie and that necessary 41 votes, a majority of the Assembly, would not likely be secured by either side of the fight.

A call of the House was ordered. This brought in a few members but the votes were divided between the opposing sides. Yet, the canvasy continued and, at length, there was a changing of votes. Assemblyman Bates of Alameds, who had originally voted in favor of the measure, changed his vote to no.

After a desultory canvass for the missing votes, the chair at length said he would announce the result of the ballot. At that moment Mr. Bates of Alameda changed his vote from nay to aye, where-upon the result of the vote was announced.

that If passed it would practically prevent the Western Pacific from entering Oakland except at such grade as to prevent depots or freight yards. It would also either cause the local electric line in its contemplated extension to San Jose and to Richmond, either to tunnel or go overhead present tracks in no less than seven or eight times. Then, too, the law as contemplated by the bills would allow an existing road, after another road had built either tunnel or viaduct, to force the new road to go to grade and put in interlocking switch and maintain its workings, or if at grade force it to tunnel or build a viaduct. Hence the following resolutions were passed and sent to the Alameda County delegates at Sacramento.

sent to the Alameda County delegates at Sacramento:

"Whereas, We regard the bills now before the Legislature of the State, Known as Senate Bill No. 341 and Assembly Bill No. 412, concerning grade crossings, as immical to the interests of our community as well as against the best interests of the State of Califfornia, and "Whereas, The passage of a bill in its present form might retard the building and would result in preventing and hampering the operation of competing railroads both steam and electric, now therefore be it "Resolved, That we, Directors of the Oakland Board of Trade, urge our representatives in the Legislature to use every proper means and exert every effect to defeat said Senate Bill No. 342. "Resolved, That a copy of these resolutions be sent to each member of the House and Senate from Alameda county."

The Southern Pacific Railroad made a test of some of the briquettes made by this process, and the report made by H. Stillman, engineer of tests, to H. J. Small, superintendent of motive power, is a dattering testimonial to the new device and the quality of the fuel it produces. The report says: "From observation of the experiments with this pressed coal I am prepared to state that it burns freely and easily, evolving great heat in a short time. For grife and range purposes, also stationary boiler use, switch engine and light work on locomotives, it appear to be well adapted." The samples submitted were made from the screenings of Pittsburg, mixture, blacksmith, Cardiff and Castle Gate coals. All coked readily save the Castle Gate. BLAZE CAUSES SCARE,"

CHICAGO, February 17.—A smoul-dering fire in the Hotel Veley, 165 Clark street, discovered early today, caused the second hotel scare within four days in the down-town district. Half an hour after the fire department was notified by telephone, the blaze seemed to be extinguished. Many of the guests, however, alarmed by the Tuesday morning fire in the Brevoort Hotel, left the place in haste.

Offered Students Who Writes Best Essay in a Contest.

BERKELEY, February 17.—Univer sity students are greatly interested in the anouncement that three prizes—a the anouncement that three prizes—a first prize of \$100, a second prize of \$75 and a third prize of \$50—have been offered by the Hon, John Barrett, United States minister to Panama, to be awarded to the authors of the best papers on "The Relations of the United States with the Latin-American Republics." College students are everywhere given an opportunity to John in the contest, and it is thought that the awarding of the prizes will be to the student who is well up in such a matter, rather than with an outside person. This is presented to the student especially, for his consideration.

Mr. Barrett states the object of the prizes to be "to do something to develop throughout the United States a wider interest in our political and commercial relations with Latin-America and to foster a more general study of Latin-American history, institutions, political, social and educational conditions, material and industrial resources and commercial possibilities—especially as they affect the growth of closer ties of international comity and confidence."

The prizes are offered subject to the following rules of competition:
The competition is open to any student, man or woman, now registered in a regular undergraduate course in first prize of \$100, a second prize of \$75

Y., marked "For the John Barrett Prize."

HIGH SCHOOL DEBATING SO CIETY TO BECOME PART OF A CHAIN.

BERKELEY, February 17.—An important step in the furtherance of forensics in the Berkeley High School was taken yesterday afternoon when the Forum, the debating society of the school, passed unanimously a resolution to join the Debating League of Northern California. For several years, different members in the debating organization have endeavored to bring the club into the league, but have until now been unsuccessful. Application for admission to the league has been made and it is expected that it will be granted in a few days.

The joining of this league means that a series of debates with various schools of the State will be held instead of the customary Oakland debates, which gives the debaters the only chance to gain practice. The other schools around the bay have already become members of the league?

California Professors Tell of Visit to Eastern University.

BERKELEY, February 17.—Professors Irving Stringham and A. O. Leuschner, who were chosen by the graduate council

City Attorney McBiroy, at the meeting of the Ordinance and Judiclary Committee, stated last night that the city had, by twice passing an ordinance relative to the removal of dead animals, entered into a practical contract with Louis Schaffer and that the third passage of the ordinance was more a formality than anything else.

"We offered this franchise for sale," said McElroy, "and accepted \$200 for it. By accepting the money we practically bind ourselves,"

Councilman Elliot, who has been opposed to the passage of the ordinance, said he would accept the City Attorney's oplinion in the matter, providing it was made in written form.

The committee referred the matter to file City Attorney's oplinion in the matter, providing it was made in written form.

The committee referred the matter to file City Attorney for a written opinion and recommended the passage of the ordinance on the condition that the report was favorable.

MANAGEMENT OF TIVOLE AN-NOUNCE EXTENSION OF SEASON.

A cablegram received from Havana announcing the necessity for postponing the opening of the Italian grand opera season in that city for a week has enabled the management of the Tivoli Opera House to extend the present season another week, which will begin text Tuesday night and will positively close the engagement.

The reperiors for the balance of this week is as follows: Tonight. "Tosca," with Berlindi; Saturday matinee. "Rigoletto," with Tetrazzini; Saturday night, "La Boheme," with Berlindi; Samday night, "Lucia," with Tetrazzini. Farewell week: Tuesday, "Pearl Pishers," with Tetrazzini; Wednesday, "Mignon," with Tetrazzini; Wednesday, "Mignon," with Tetrazzini.

The announcement of the extension of the Italian grand opera season comes as a pleasant surprise to playgoers about the bay who have thus far been unable to hear any of the operas.

Next Sunday afternoon a grand symphony concert under the direction of Sig. Polacco will be given. Tetrazzini, the people's favorite singer, will be the solutist. A cablegram received from Havana an-
